

## Piggy Bank Pageant - February 15

It's important to save money so you can buy or do the things you want in the future. Use your creativity to make a Piggy Bank to hold the money you save!

1. Get ideas and help securing supplies from your parents/guardian, but do the work on your bank yourself.
2. Your bank can be ANYTHING! Use your imagination.
3. You can make your bank from anything -- plastic bottles, boxes, milk jugs, cans, etc. **NO GLASS.**
4. Banks should be no larger than 12" X 12" X 12".
5. There should be a way to both put the money in and easily get it out without destroying the bank.
6. Be sure to make your bank sturdy enough to be carried or moved around without coming apart.
7. Write your name, grade and school on the bottom of your bank.

Register at <https://tiny.utk.edu/4Hbank> and then upload three pictures of your bank (front of bank, location where money goes in, location where money comes out) into your 4-H Google Classroom by February 15. Each bank will earn a blue, red or white ribbon. Banks will be judged on general appearance (25%), creativity (25%), construction (25%), and functionality (25%)

Top entries in each division will be selected as finalists. In March, finalists will turn in their banks to be displayed at community locations with 1st, 2nd & 3rd place medalists selected for each grade division: Jr (4th-5th grade), Jr High (6th-8th grade), and Sr. High (9th-12th grade).
